

# AVEDIS ABAKELIAN

Web Developer

abakelianavedis.com

Paris, France | info@abakelianavedis.com | +33 7 46 505 298

## Professional Summary

Web Developer with experience building scalable web applications, business solutions, and internal systems. Strong foundation in full-stack development, database design, and software engineering best practices. Currently pursuing a Master's degree in Artificial Intelligence for Connected Industries in Paris and seeking a 2–3 month internship where I can contribute to impactful software projects while further developing my technical expertise.

## Professional Experience

### Junior Web Developer

Dec 2024 – Aug 2025

The Web Addicts, Beirut

- Developed full websites from scratch using the TALL stack (Tailwind CSS, Alpine.js, Laravel, Livewire).
- Translated UI/UX designs into responsive, accessible user interfaces.
- Optimized performance and scalability across multiple web projects.

### IT Consultant

Feb 2024 – Aug 2024

Medicals at the Center, Beirut

- Led the delivery of web and mobile solutions aligned with client and business requirements.
- Provided end-to-end IT support and produced clear technical documentation.
- Digitized internal workflows to improve efficiency and data accessibility.

### Web Developer (Remote)

Jan 2023 – May 2023

HerTrove Inc., USA

- Developed the official HerTrove website using Shopify.
- Maintained the eCommerce platform, ensuring stability, performance, and smooth user experience.

### Software Engineering Intern

Jun 2023 – Aug 2023

Central Bank of Lebanon, Beirut

- Designed and implemented an Inventory Management System using Django and Python.
- Built a MySQL database for secure and efficient inventory tracking.

## Education

### Master of Science in Artificial Intelligence for Connected Industries

2024 – Present

Conservatoire National des Arts et Métiers (CNAM), Paris, France

### Bachelor of Science in Computer Science

2020 – 2024

Haigazian University, Beirut, Lebanon
